IASc-INSA-NASI Summer Research Fellowship-2015 May-July 2015
Supervisor: Prof. (Dr.) Nikhil R. Pal, *ECSU*, **Indian Statistical Institute (ISI) Kolkata**
Project Title: Studying the effects of various distance measures on Self Organizing Feature Map
Details: The standard Self Organizing Feature Map (SOFM) works with Euclidean distance measure. The objective was to study the effects of non-Euclidean distance measures such as 1-norm distance, Mahalanobis distance, Chebyshev/Infinity-norm distance, p-norm (p is even) distance on different properties of SOFM. Major properties includes training performance, topology preservation and density matching.
